VOCABULARY APPS

Fotobabble

It allows users to take a new photo or insert a photo from the camera roll. After inserted to a page, users select a frame, choose various editing effects, and add stickers, drawings, and text. Then, users record themselves adding information about the photo. This activity is especially helpful to scaffold English language learners understanding of academic vocabulary.

Pic Collage

The app is useful to extend vocabulary knowledge of words with multiple meanings and shades of meaning. Photos can be inserted to frames and text can be inserted next to the photo containing the vocabulary. Or in math, students can locate and label various geometric shapes.

Explain Everything

Is a screen casting app. Users enter images, videos, and text to a blank slide. Tools include inserting arrows to direct attention and text highlighting options. With scaffolding and support, teachers and students can use this app in various ways to personalize students' vocabulary development and interest in words.
