

How can you practise being a geographer whilst at home?

Geographic Vocabulary Posters (Duration: 1 Week)

Knowledge:

- Understanding of great geographic works!

Skills

- Illustration
- Research

Equipment

- Pen and Paper

Task 1:

Choose one of the following **AMAZING** key terms! If there is another word that you are especially interested in, you can choose that too!

- Climate Change
- Environment
- Sustainability
- Community
- Recycling
- Precipitation
- Volcanoes
- Lightning storms
- Rainforest
- Desert

Task 2:

Your task is to research this key term; find out everything you can about it.

You can do this in lots of ways, like:

- Looking it up online (if you can)
- Asking somebody at home 'What does this mean?'
- Phone a friend - maybe a grandparents or school friend!
- Check the Dictionary.

Task 3:

Once you have collected all of your information, your next task is to produce a special geographic poster all about the word. It must include:

- A large title, showing the word correctly spelt
- An example of a sentence using the word correctly
- At least 4 associated words. For example, if I was researching the word polar, I may include bear, ice and cold.
- A range of images and scenes to help show your word.
