Using Google Classroom

Treat Google Classroom the same as your usual classroom

Focus on your learning and try not to be distracted. Remember you are in a learning environment!

Use classroom language

Write and speak as you would in class – always be respectful and avoid negative comments.

Don't share passwords

Keep your personal details and class codes private – do not share them with anyone else.

Stick to your classroom rules

The same class rules apply! Particularly around behaviour and language. Your teacher and the Headteacher will be monitoring everything you do on Google Classroom.

Don't use Google classroom to discuss personal matters or have private conversations

Look after your mental health and well-being

Take regular screen breaks, get fresh air and do other activities.

Enjoy your online learning!
