

## Living with Covid: next steps for our schools

Dear Parent/Carers,

We are writing to inform you of our approach to managing COVID-19 following guidance from the DfE.

If your child has a high they temperature should stay at home and where possible avoid contact with other people. They can return to school when they are 48 hours fever free and well enough. Please do not send your child to school if you have given medication to reduce the signs of having a high temperature.

If your child has tested positive for COVID-19 they should stay at home and where possible avoid contact with other people for 3 days after the day, they took the test. They can return to school after 3 days if they feel well and do not have a high temperature.

Children with common cold symptoms, a runny nose, sore throat, or mild cough, who are otherwise well, can continue to attend their education or childcare setting. As has always been the case, we will contact you if your child appears unwell at school so that they are able to be collected.

Yours sincerely,

Maddie Southern  
Headteacher

Mrs Lorna Cummings  
Head of School, Holland Road
